

FuelGuard

Preventative Maintenance Program

FLEET MANAGEMENT

FuelGuard's Fleet Management program is designed to ensure your fuel is free of contamination, so your operations and equipment are protected.

PRODUCT	PROBLEMS	ADDITIVE	WHAT IT DOES
Diesel	Microbial Growth	Bellicide	Resolves Fuel-Water Emulsions to allow Emulsified Water to Separate from Fuel
Diesel	Excess Water in Storage Tank	DFS Plus	Can Help Prevent Microbial Growth by Eliminating Free Water
Diesel	Tank Sludge	Tank Treatment SDF	Disperses Microbial Growth by Eliminating Free Water
Diesel	Fuel Deterioration	Dee-Zol Life	Stabilizes Stored Fuel and Extends Usable Storage Life
Diesel	Low Cetane	Super-Tane	Increases Engine Performance, Reduces Black Smoke
Diesel	Accelerated Corrosion	Tank Treatment SDF	Protects Tank Surfaces from Corrosion
E-10	Poor Engine Performance/Black Smoke	Ethanol Defense	Increases Detergency, Improves Ethanol Water Tolerance

FuelGuard has partnered with Bell Performance Chemicals to offer industry-leading chemical solutions for our valued customers, including lab analysis, resulting in lower maintenance costs, lower liability and higher fuel quality. All Bell chemicals are EPA registered products.
